Mary Washington College of the University of Virginia

Vol. XXVI, No. 2

Plans Are Well Underway For New Dorm on Campus

With the new Fine Arts Center in use and the completion of the Student Activities Building in immediate sight, attention will soon be focused on the construction of a three-unit dormitory which Dr. Morgan L. Combs, President of Mary Washington College, hopes will be finished within the next year and a half.

This three-story building will be erected on the site of the present Marye Hall, and will house 363 students. The building is planned in a U-shape with the curved base of the letter on the side of the hill nearest Sunken Road and the two wings opening onto Campus Drive across from George Washington Auditorium. The connecting center dorm of the construction is of deceptive design. It will be sunken below the hilltop leaving only a colonnaded terrace visible from Campus Drive. This terrace will face upon a landscaped lawn centered with a fountain.

The architecture will follow the campus' neo-classic tradition patterned after Thomas Jefferson's University of Virginia. The main columns will be similar to those on Mary Ball Hall and the pillars on the end porches of the two wings will follow the Ionic ones of George Washington Hall.

The interiors of these new dormitories were decided upon after Dr. Combs had made a survey of new college buildings in Oregon and Washington state, at Radcliffe, Simmons College and other colleges. Many novel features are to be contained in the dorms, making them some of the most beautiful and livable ones at Mary Washington.

Each unit will have a large recreation room in the basement and each floor, a kitchenette. A descent of three steps will be made into the parlor, a spacious room cover-

ing one entire side of the first floor hall in the center section.

An amplifier system of communication will be installed to all floors from the center main hall to eliminate the present inconvenience of ascending stairs to announce telephone calls or guests. Each outside door will be controlled from the hostess' rooms.

Marye Hall will be moved 200 feet north and turned so that the colonnaded porch will face Campus Drive. The present driveway will be re-routed for a hidden parking lot behind the new dormitory.

The General Assembly has already appropriated \$700,000 for the work, but the Governor last spring authorized working drawings for a \$950,000 project. The college won't know what the actual cost runs until bids are opened but the difference, over \$250,000, will be made up from surplus funds or bonds.

Another addition to the school has been completed. Brick and stone pillars have been placed as an entrance gateway to College Avenue from the Fredericksburg by-pass on Route 1. These are to contain the name of the college.

President Combs, who came to a 60-acre, three-building college in 1928, has seen the campus extend to 381 acres and has been responsible for the erection of additional buildings the value of which is estimated between \$15 and \$25 million. "Each new building began as a dream," said Dr. Combs. "My next wish is for a new science building and maybe someday we'll have that. The other dreams have come true."

Forensic Program Is Announced

Anna May Wheeler, the Grand President of the Mary Washington Strawberry Leaf Society, has released the program for the 1953 Grand National Forensic Tournament, to be held at Mary Washington College beginning Wednesday, April 1, and ending Sunday, April 5. The tournament will be sponsored by the Strawberry Leaf Society, celebrating its twenty-fifth anniversary, and will include address reading, after dinner speaking, debating, declamation, dramatic reading, impromptu speaking, informative speaking, oratory, and poetry reading. More than two hundred contestants represented about fifty colleges in the 1952 tournament.

Members of the Strawberry Leaf, which originated in England to honor those who sponsor Royal Forensic Events, are chosen on the basis of their work throughout the year and are tapped into the organization at the Strawberry Leaf Predictive Dance, one of the highlights of the Grand National Forensic Tournament. They act as hostesses to the contestants during the tournament and see that everything is properly arranged.

The aims of the Strawberry Leaf Society are the training of students in managing public assemblies, and the furthering of formal speech activities. Its members become acquainted with contest leadership and parliamentary procedure. Meetings are held periodically on Monday nights at 6:30 in the Tapestry Room. Eleanor Rae Jones and Wilma French are Chairmen of Debate.

Levin Houston To Give Exhibit In Town

There will be an exhibition of water colors by Levin Houston at Carley's, in downtown Fredericksburg, October 9th through the 23rd. Fifty paintings, ranging from contemporary scenes in Fredericksburg to flower studies and including several abstractions, will be on display. One of the water colors won first popularity prize for water colors in the annual Rappahannock Valley Art Association Show in the Market Square last spring, and another tied for third place.

Mr. Houston, who teaches piano at Mary Washington, is known also as a composer and pianist. He studied art at the National Academy of Design and the Art Students' League in New York.

ANNA MAY WHEELER

Seven New Profs Are Introduced On MWC Faculty

Mary Washington College has seven new faculty members this fall, including Dr. Burney Lynch Parkinson, former president of Mississippi State College for Women. Miss Mildred Cates, home economics instructor; Albert G. Duke, instructor in radio and speech; Albert R. Klein, dramatic arts instructor; William C. Pinschmidt, Jr., biology instructor; Miss Teresa Shelton, instructor in health and physical education, and Mrs. Elena Krupenski, ceramics instructor, are the other new faculty members.

Miss Shelton, a native of North Carolina, received her Bachelor of Science degree at the Woman's College of the University of North Carolina, and her Master of Arts degree at the University of North Carolina at Chapel Hill. Before coming to Mary Washington, Miss Shelton was a physical education instructor at the University of Maine, a graduate assistant at the University of North Carolina, and an assistant professor at Madison College in Harrisonburg, Virginia.

First Ceramics Course

Mrs. Krupenski was born in St. Petersburg, Russia. She graduated from the Academy of Arts there, and has studied at the Ceramic Art Studios in Stockholm, Sweden. Her mother was an American and her father a chamberlain to the Tsar of Russia, was a Marshall of Nobility. Her late husband was a Russian diplomat. In addition to teaching the first courses in ceramics at MWC, Mrs. Krupenski will have classes in art appreciation.

Mr. Pinschmidt was born in Richmond, Virginia. He completed his under-graduate work at Mount Union College in Alliance, Ohio. During the war, he served in the Navy. He went to Ohio State University for his Master's degree, and was in the same department with the same adviser as Mr. J. R. Pitman, another member of the MWC biology department. Mr. Pinschmidt has done research in cancer at the Medical College of Virginia.

Mr. Klein, from Denver, Colorado, received his Bachelor of Science degree from the University of Iowa and his Master of Arts at the University of North Carolina. He has done additional graduate work in drama and playwriting at Chapel Hill and the University of Denver. This past year, he was a student assistant at the University of North Carolina, and a supervisor of stacks in the university library.

Native of Mass.

Mr. Duke was born in Springfield, Massachusetts. He received his Bachelor of Arts degree from Syracuse University and his Master of Arts degree from Ohio State University. He has completed enough class room work for a Ph.D. degree at Cornell University. He taught English and speech in New York schools before coming to Fredericksburg.

A native of Hampton, Tennessee, Miss Cates received her Bachelor of Science degree at East Tennessee State College and her Master of Arts degree from the University of Tennessee. Miss Cates has worked for the Carbide and Carbon Corporation in Oak Ridge, Tennessee, and has taught home economics at Roanoke Mountain (Tennessee) High School.

Dr. Parkinson, born in Tennessee, is known in the South for his work in education. He re-vitalized Mississippi State College for Women in the twenty years he was president. He was president of the Southern Association of Colleges for Women, the Mississippi Association of Colleges, vice president of the Southern Association

Diane Stokes Wins Title As Best Doll

Freshman Diane Stokes is chosen outstanding doll at annual party.

Huck Finn, Tom Sawyer are at Party

Diane Stokes was selected as the outstanding doll at the annual Freshman Kid Party held Friday night, October 3, in Monroe Auditorium. Judges for the show were Mr. Pitman, Miss Wade, Mr. Klein and Miss Shelton.

Jackie Colbert, President of Y. W. C. A., presented the dolls to the audience. The procession included twin dolls, triplets, big-sister-and-little-brother, sleepy time gals, and even a little girl with one of the campus dogs. Among the toy

animals who shared the spotlight were elephants, lambs, and various types of dogs and cats.

Anne Loyd, a senior dressed as a little girl, led the audience in singing old favorites while the judges were making their decision, and Nell Amos and Pat Hatfield, both juniors, presented their version of the Siamese Twins. Mr. Pinschmidt and Dr. Castle were Tom Sawyer and Huckleberry Finn, bouncing a ball and playing hooky by going fishing. A party was held in the Tapestry Room after the show.

"Blithe Spirit" To Be First Play

Noel Coward's "Blithe Spirit" will be the first play to be presented by the College Theatre this year. It will be given in the "Little Theatre," the recently completed theatre in the Fine Arts Building, on November 6, 7 and 8. "Years Ago," by Ruth Gordon, will be College Theatre's second production, followed by Patrick Hamilton's "Angel Street," and Bernard Shaw's "Pygmalion."

The Mary Washington Players have elected Mr. Mark Sumner and Mr. Al Kline as their co-sponsors for the year. To help those who are beginning in theatre, classes will be presented by Joan Watson, Jackie Reese and Barbara Hamilton in scenery, lighting and makeup, respectively.

ATTENTION FRESHMEN

Instead of attending the regular orientation program this Thursday, freshmen are asked to meet with their faculty advisers at the same place each group met the first time.

of Colleges and Secondary Schools, and of the Association of Colleges and Secondard Schools of the Southern States. A Commissioner to the Presbyterian General Assembly in the United States in 1939, he has also been president of Presbyterian College in South Carolina. Dr. Parkinson is professor of psychology and education at Mary Washington.

Awards Are Given To 1952 Seniors

At Class Day exercises held May 31, 1952, the following awards were presented to outstanding seniors. The Alpha Phi Sigma Award was conferred upon Elfreda Louise Beck of Glen Head, New York, for having attained the highest scholastic average in the Class of 1952. Gwendolyn Amory of Hampton, president of Student Government Association for 1951-52, received the Kiwanis Award, presented annually to the senior who has contributed most to the interests of the college. Virginia Ortney of Laurel, Mississippi, because of her scholarship and service, was the recipient of the Jeffersonian Cup, an award which commemorates the consolidation of the College with the University. The National Arion Foundation Award was presented to Sarah Huston of Dayton, Ohio, for her contribution to the band and to Eva Busemann of Hampton, for orchestra. The Mu Phi Epsilon Award went to Anne Lee Ceglis of Norfolk, "the outstanding musician of her class." The national scientific fraternity presented the Chi Beta Phi Award to Eva Busemann of Hampton, who was the outstanding science major. Khalida Showker of Kingsport, Tennessee, received the Pi Gamma Mu Award from the national social science fraternity. As the drama major who contributed most to the College Theatre, Mildred Jones of Roanoke was presented with the Alpha Psi Omega Award.

Avoid the Conflict . . .

The approximately sixty clubs which are organized at Mary Washington offer each girl an extracurricular activity to which she can contribute and from which gain advantages, also. Much can be said in favor of these clubs, and yet there arises an annual problem: scheduling of the meetings of the clubs unavoidably causes conflict. This conflict has never been successfully overcome. Perhaps this year it may be. Inter-Club Council, an organization of all the presidents of the various clubs, has planned a complete schedule of meetings following that of last year as closely as possible. If the clubs will cooperate with Inter-Club, all will benefit.

Listed here is the new schedule:

MONDAY—Alumnae Daughters, 1st 7:00; Battlefield, To be called; Bullet, 5:15; Campus Chest, To be called; Concert Dance, 4:00-6:00; Epaulet, To be called; Home Economics, 2nd 6:45; Mu Phi Epsilon, 2nd and 4th 8:00; Pi Gamma Mu, To be called; Pi Nu Chi, 1st and 3rd 5:30; Sigma Omega Chi, Last 5:00; Sigma Tau Chi, 8:00; Strawberry Leaf, 6:30.

TUESDAY—Art Club, 1st 5:00; Athenaeum, 1st 7:00 or 8:00; Band, 3:00; Eta Sigma Phi, 2nd 7:00; Glee Club, 8:00; Hillel, 2nd and 4th 8:00; Hoof Prints, 2nd 5:00; Sigma Tau Delta, 1st and 3rd 5:00.

WEDNESDAY—Concert Dance, 4:00-6:00; History Club, 5:00.

THURSDAY—Alpha Phi Sigma, 3rd 7:00; Band, 3:00; Cavalry, 3rd; Le Cercle Francais, 2nd 5:00; Christian Science Organization, 1st and 3rd 8:00; Spanish Club, 1st and 3rd 8:00; International Relations, 1st 7:00; M. W. C. Players, 3rd 5:00; Mike Club, Last 5:00; Newman, 1st 7:00; Phi Sigma Iota, 2nd 8:00; Psychology Club, 2nd 7:00; Terrapin Club, 7:00; Zeta Phi Eta, 1st 5:00.

FRIDAY—Concert Dance, 4:00-6:00.

SUNDAY—5:15, Canterbury Club; Disciple Student Fellowship; Lutheran Organization; Modern Lit. Club; Wesley Foundation; Westminster Fellowship.

Inter-Club has no record of these clubs. If you wish to become a member, you must turn in your application: Baptist Student Union, Cap and Gown, Chi Beta Phi, Choir, Formal Dance Committee, Forum, Glee Club, Italian Club, Science Club.

CLUB ACTIVITIES

CAMPUS CHEST

The Campus Chest Committee held their first meeting Tuesday, September 23 and had as their speaker, Mr. Leon Marion, who is a representative of the World Student Service Fund. Mr. Marion has just returned after spending the summer in Europe, where he was an American delegate to the international conference of World

University Service and participated in the British conference on Christian Youth. In the meeting, Mr. Marion discussed the history of the World Student Service Fund and offered suggestions as to how the organization could be brought closer to the student.

Cellophane was first made in Germany and France.

Notices

Mr. Binford's oil painting class takes regular trips to Washington art galleries. Due to the small class, places are available for other students. Those interested are asked to contact Mr. Binford. The first trip will be on Tuesday, October 7 and the second on Thursday, October 23.

No further changes in student schedules will be made after Wednesday, October 8.

Tickets are still available for the Washington Concert Series which opens October 8.

The Mary Washington Players are planning a bus trip to Washington October 10 to see "Bernadine," the play by Mary Ellen Chase, author of "Harvey." Tickets may be obtained from Marygene Mulligan.

KOLLUM

Now there are all types of lines, or so they say in geometry: diagonals, tangents, perpendiculars, and the like. But there is certainly one type of line which is neither a perpendicular nor a tangent in design nor for that matter, can be found in any geometry book. This type of line can be found, however, interwoven between tables, draped in chairs, flowing out of doors, and possibly down steps. In its actions there appears to be somewhat of the attitude of the cat who swallowed the canary (though it belongs to an entirely different species). It creeps upon you before you know it; it's there when you least expect it; and it moves slowly and slyly forward. No matter how early or late in the morning, it's there waiting for you. You can neither escape nor avoid it—it's there to greet you every morning.

I can't say that I see anything wrong with the fine old tradition of breakfast, but it's the horror you have to undergo to get your dry piece of toast and lukewarm coffee to which I object. Choking down food can be very trying on the digestive system.

Many other designs in lines can be found around campus frequently—for instance, the line of happy faces entering the ole P. O.; then, that of the dejected mortals creeping out again. The lines take on a decidedly new shape and form from our breakfast line.

The moral to this dissertation is easily summarized: beware the fate of a college student! Search for the uncomplicated things in life away, far away, from short lines, fat lines, square lines, medium sized lines and all the other kinds of lines which lead a person to distraction and horrible nightmares.

...But only Time will Tell

**CAMEL leads all other brands

**Test CAMELS
for 30 days
for Mildness and Flavor**

CAMELS are America's most popular cigarette. To find out *why*, test them as your *steady* smoke. Smoke only Camels for thirty days. See how rich and flavorful they are — pack after pack! See how mild CAMELS are — week after week!

Oct. 12 Is Date For Horse Show

The Fall Horse Show sponsored by the Hoof Prints Club will be held at Oak Hill Stables Sunday, October 12, at 1:30 P. M. It will be an open show and will feature competition among local horses and horses from Richmond, Charlottesville, Warrenton, and other places in this section of Virginia.

Among the Mary Washington students who will compete in the show are the champion and reserve champion of last year's Spring Show, Beth Otway and Joyce Hines; Sally Wyson, a sophomore, and her own horse, Playmate, who has won many ribbons; and several freshmen and transfers. There will also be a number of Mary Washington graduates present, some as exhibitors, some as spectators, and one as a judge.

Russell Walther, Jr., will make his last appearance on the well-known gray pony, Pinocchio, before leaving for New York's Madison Square Garden to compete in the National Horse Show. They have won several championships in shows this summer.

Tickets for the Fall Horse Show may be obtained for sixty cents from any Hoof Prints member or at the gate on Sunday. Buses will leave Chandler Circle for the stables during the early afternoon.

The International Relations Club of Mary Washington College held its first regular meeting of the year at 7:00 P. M. Thursday night in Chandler 12.

The meeting was called to order by the President, Peggy Ann Sloan. The minutes of the last meeting and the history of the club for the year 1951-52 were read by the secretary, Helen Hodges. This was followed by the treasurer's report by Ann Lee Berry.

Under new business, the club was reminded of the IRC Cabin Party, Tuesday, Oct. 7, at 5:30. The International Relations Club has been asked by Inter-Club Council to present the assembly program for Oct. 24th, United Nations Day. Plans were made for it. The club will have a fudge sale sometime this month.

For the program of the evening, the Vice-President, Jean Verling, introduced two of our foreign students to the club; Mary Kehaya

Dear Mom . . .

Dear Mom,

I guess school has really begun in earnest now. Mr. Shull is giving his weekly chemistry tests and Dr. Early is listing his suggested term paper topics. Not only that, but we're back to creamed stuff for lunch. When I get out of here, if I ever see a white sauce again, I'll turn into one! Really, the food has been very good, so far—except for those white sauces. As someone remarked in Convocation last week, the dining hall does all right, when it's helped out by Howard Johnson's, the "C" Shoppe, the College Inn, and the Southern Grill (not to mention our little hot plate).

We got the corn popper fixed and it cost a little more than I'd planned on spending (do you see what I'm hinting about? I'm poorer than those little rats living in the

from Greece and Ester Castro from Uruguay. The group then joined in an informal discussion with these girls. Some of the topics covered were questions on education, recreation and sports, first impressions of the country, etc.

Dr. Darter, the club sponsor, as well as two other members of the faculty, Dr. Sublette and Dr. Josiah Combs, also entered into the discussion.

church house at home!) It does a good job of coffee making, though. Gosh, we can start a new home ec course: Preparing a meal on the Corn Popper.

Betsy and I got our little sisters all fixed up for the Kid Party. They had a grand time, but—Oh, Gussie! Betsy and I spent the weekend in bed, resting up from it. Why did Susy have to cry for her bottle and Betty insist on counting her toes in the middle of the judging? That's carrying it a little too far, if you ask me!

By the way, I finally passed the Butcher-knife test. And don't do what Betsy's mother did last week, when she was down. Betsy used the same title for the "Bayonet" and her mother sweetly smiled and said, "Dear, you never mentioned that to me. What is it?"

Well, here comes that hall monitor again. Last year, when we dreamed about these twelve o'clock lights-out rules, we never thought we'd be wanting 'em lengthened to one o'clock—but we do.

I could use some of that green stuff—I'm being forced to eat in the dining hall all the time now-days, for lack of it.

love,
Dotter

Rain water is not pure since it collects impurities from the air in falling.

PERSONALITIES

By JANE HOWARD

"I don't particularly like butterflies," replied Dr. Zoe Black when asked if she had any pet peeves. She hesitated to

disclose why, but I'm sure she must have had interesting reasons.

What impressed me most during our talk was Dr. Black's sincere enthusiasm in wanting to understand and sympathize with "her young people." She thoroughly enjoys her position as housemother at Trench Hill! This duty is, of course, just one-half of her activities at M. W. Dr. Black is a definite asset in the Biology Department, as many are aware.

Dr. Black was born in Norris-town, Tennessee, where she attended the public schools. She received her B. S. from the University of Tennessee and her Ph.D. from Duke University in North Carolina. She has been on the Mary Washington faculty for six years.

With her daughter Jane, Dr. Black has a great time at Trench Hill. Jane is a junior at James Monroe High School in Fredericksburg. At the off-campus dorm, Dr. Black confesses she has time for her hobbies, dress designing and sewing. From designing her own dresses, to studying the reaction of the amoeba, to Fluffy, Trench Hill's mascot, Dr. Black seems to have struck a happy medium between domesticity and profession.

Dr. Castle

"We've never lost a student yet," replied the tall, distinguished gentleman referring to his classes that involve dissection and mention of blood and bones.

When I first mentioned this interrogation to him between class periods, Dr. Castle modestly inquired, "What have I done?" That was my cue to reverse the question and discover what he had been doing, what he does, and what he liked to do.

Being "top man" in the Biology Department, Dr. Castle is a busy man. The "pre-med" and "pre-nursing" students are his proteges, he confesses. Dr. Castle has been on the M. W. faculty for ten years. Before teaching here, he taught at Brown University in Providence, Rhode Island; and Gary College in Gary, Indiana. Between his positions at these various colleges, Dr. Castle did research work and study. He began his studying career in Alexandria, Ohio. Later, he was graduated from Denison University, Granville, Ohio. The following four years were spent at the University of Chicago, where he received his Doctorate of Philosophy in Zoology in 1928.

He did confirm the fact that women have stronger stamina than men when it comes to witnessing a dissection. He based this claim on experience at Brown University.

When asked if he had any pet peeves, Dr. Castle said, "No, not particularly," but added, "It is quite annoying when some students leave class early in order to speed their college careers away from Mary Washington." But he confesses he does understand though, since he himself is the father of three girls: Barbara, a student at William and Mary; and Margaret and Betsy, senior and junior high school students.

Dr. Castle professes no special interest in sports, but does enjoy watching football and political conventions on television. Wood working and photography are spare time hobbies. "I would rather tour the United States than Europe," replies Dr. Castle to the question concerning travel.

As the pleasing interview was drawing to a close, I thought I would give the "favorite prof" a chance to say a word to the press. "I have just this to say —don't quote me!"

IMPORTANT ANNOUNCEMENT

COLLEGE STUDENTS PREFER LUCKIES IN NATION-WIDE SURVEY!

Nation-wide survey based on actual student interviews in 80 leading colleges reveals more smokers prefer Luckies than any other cigarette -- and by a wide margin. No. 1 reason given -- Luckies' better taste. Survey also shows Lucky Strike gained far more smokers in these colleges than the nation's two other principal brands combined.

- Oct. 31—12:30 Assembly—MWC Players.

M. W. C. majorettes who lead the band to first place in the Fredericksburg parade are: Patricia Roper, Clara Ann Turner, Doris Ann Lindsey, Jane Greene, and Tamara Hayes.

MWC Band Is First In Local Parade

These high stepping majorettes led the Mary Washington band to the position of first place in band competition in the Rescue Squad Parade held in Fredericksburg last week. The occasion was the annual convention of Virginia Rescue Squads. Included in the marching were high school bands from Fredericksburg and Highland Springs. A trophy was presented to the M. W. band at the convention dinner.

The fifty-six-piece all-girl band will participate in similar parades during the year. Among these are the Dog Mart in Fredericksburg, the AAA in Washington, and the Tobacco Festival and Toy Parades in Richmond. They also play for football games in this vicinity.

The band is directed by Ronald Faulkner, associate professor of music. Betty Anderson, a senior from Man, West Virginia, is student manager.

Five Participate In Historical Scenes

Bettie Christopher, Frances Gunther, Mary Kendall, Nancy Lewis, and Susan Powers participated in a historic pageant at Kilmarnock October 1 and 2. The colorful pageant, depicting three hundred years of Northern Neck history, was part of a two-day celebration of the Lancaster County Tercentennial.

Susan took part in the Stafford County section of the pageant, which was written by Mrs. C. W. Stewart, associate professor of ancient language at Mary Washington. Mary portrayed the Indian princess, Pocahontas, daughter of Chief Powhatan. Frances, who appeared as "Miss 1952", Nancy, "Princess King George County," and Betty, who was "Princess Northumberland County," rode on a float sponsored by Northern Neck Mutual Fire Insurance Association. Both Betty and Nancy brought greetings from their respective counties to Queen Lancaster, Virginia McGinnes.

Prizes Are Offered For Poster Designs

Prizes of \$50, \$30, and \$20 are offered for winning designs in a poster competition for student tours of Europe.

This competition has just been announced by Travel & Study Inc., of New York City, and is open to all students, both undergraduate and graduate. The closing date of the competition is October 25. Designs should illustrate or suggest student travel to Europe and should be centered round a slogan of not more than six words. The poster should not be larger than 13½x10 inches.

Students who are interested in earning part or the whole of a trip to Europe next summer, or cash, and who fancy their own prowess in sales rather than slogans, promotion rather than poster design, might wish to become Travel & Study campus representatives. Those who are interested in the promotion of its educational opportunities abroad for students should write explaining why they think travel important and how they can effectively assist in this work. Further details may be obtained from Travel & Study, Inc., 110 East 57th Street, New York 22, N. Y.

NOSE, THROAT

and Accessory Organs not Adversely Affected by Smoking Chesterfields

FIRST SUCH REPORT EVER PUBLISHED ABOUT ANY CIGARETTE

A responsible consulting organization has reported the results of a continuing study by a competent medical specialist and his staff on the effects of smoking Chesterfield cigarettes.

A group of people from various walks of life was organized to smoke only Chesterfields. For six months this group of men and women smoked their normal amount of Chesterfields—10 to 40 a day. 45% of the group have smoked Chesterfields continually from one to thirty years for an average of 10 years each.

At the beginning and at the end of the six-months period each smoker was given a thorough

examination, including X-ray pictures, by the medical specialist and his assistants. The examination covered the sinuses as well as the nose, ears and throat.

The medical specialist, after a thorough examination of every member of the group; stated: "It is my opinion that the ears, nose, throat and accessory organs of all participating subjects examined by me were not adversely affected in the six-months period by smoking the cigarettes provided."
